

# Kyokuto Kaihatsu Group Environmental Policy

The Kyokuto Kaihatsu Group promotes, voluntarily and energetically, in all of our business situations, activities aimed at passing on a better global environment to the future generations.

1. We operate the PDCA cycle and strive to continuously improve our operations.
2. We comply with environmental laws and regulations, and give proper consideration to pollution prevention, contamination avoidance, and energy conservation.
3. We strive to reduce environmental impacts throughout entire product lifecycles.
4. We promote reduction of wastes, and strive to recycle generated wastes.
5. We aim at development of technologies conducive to global environment conservation.
6. We strive to maintain a sustainable global environment in consideration of biodiversity.
